

**International Max Planck Research School
for Solar System Science at the University of Göttingen**

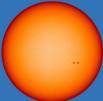

PhD positions 2022 in Solar System Science

Sun and Heliosphere

- Solar magnetism and activity
- Solar corona and wind
- Solar variability
- Stellar activity and variability
- Space missions: Solar Orbiter, SOHO, Stereob, ...
- Balloon- and ground-based observatories: Sunrise, Gregor, ...

Solar and Stellar Interiors

- Helioseismology
- Asteroseismology
- Stellar modeling
- Exoplanetary systems
- Space missions: SDO, Kepler, Plato, ...
- Computational Flow Physics and Data Assimilation

Planets and Comets

- Planetary plasma environment
- Planetary science

Three-year international PhD program

- Attractive funding via doctoral support contracts
- Collaborating with leading scientists
- Working in English language, complimentary German courses
- Inspiring curriculum of scientific lectures and seminars
- Career support through advanced training workshops
- Travel funds provided to attend conferences
- Doctoral degree from the renowned University of Göttingen
- Short-term post-doctoral appointment after graduation

**Review of applications begins
1 November 2021**

Max-Planck Institute for Solar System Research
Göttingen Campus

Germany
