

MAX PLANCK INSTITUTE
FOR SOLAR SYSTEM RESEARCH

MPS

GA GEORG-AUGUST-UNIVERSITÄT
GÖTTINGEN

SOLAR SYSTEM SCHOOL

IMPRS

for Solar System Science at the Universities of Göttingen and Braunschweig
INTERNATIONAL MAX PLANCK RESEARCH SCHOOL

PhD positions 2023 in Solar System Science

Planetary Science

Origin and evolution of the early solar system
Formation and chemical differentiation of the planets
Meteorites, isotope geochemistry and cosmochemistry
Planetary building blocks
Planetary plasma environment

Sun and Heliosphere

Solar magnetism and activity
Solar corona and wind
Solar variability
Space missions: Solar Orbiter, SOHO, Stereod, ...
Balloon- and ground-based observatories: Sunrise, EST, ...

Solar and Stellar Interiors

Helioseismology
Asteroseismology
Exoplanetary systems
Space missions: SDO, Kepler, Plato, ...
Computational Flow Physics and Data Assimilation

Three-year international PhD program

Attractive funding via 65% doctoral support contracts
Collaborating with leading scientists
Working in English language, complimentary German courses
Inspiring curriculum of scientific lectures and seminars
Career support through advanced training workshops
Travel funds provided to attend conferences
Short-term post-doctoral appointment after graduation

Submit your application before
1 November 2022

Max-Planck Institute for Solar System Research
Göttingen Campus
